PETITION TO THE GOVERNMENT OF CANADA

Whereas:

- The federally mandated carbon tax is increasing the price of everything and making life more expensive;
- In a time of increasing costs for fuel, housing, and household goods, the government plans to more than quadruple the current tax on gasoline, home heating, and other fuels;
- The purpose of the carbon tax is to increase the price of energy; and
- The price of energy has increased dramatically.

Therefore:

- We, the undersigned Canadian citizens, call upon the government to end federal excise taxes on energy, federally mandated carbon taxes, and the GST on oil and gas.
