

PETITION TO THE FEDERAL GOVERNMENT

Whereas:

- Ground beef is a nutritious staple of Canadians' diet;
- Ground beef is affordable, healthy, versatile and easy to prepare;
- Canada has 60,000 beef farms which contribute \$23 billion to our economy; and
- Health Canada has singled out ground beef to be the only whole food to warrant a market-killing warning label.

Therefore, we the undersigned citizens of Canada call on the federal government to cancel plans to cripple the Canadian beef market with inaccurate and inappropriate warning labels.
