

PETITION TO THE GOVERNMENT OF CANADA

Whereas:

- Sales of electric vehicles have declined over the last year;
- The federal government's zero-emission vehicle sales mandate will increase the cost of gas-powered cars by as much as \$20,000 and hybrid vehicles by \$10,000;
- Any subsidy for electric vehicle sales redistributes wealth from lower income Canadians to higher income Canadians; and
- The zero-emission vehicle sales mandate discriminates against Canadians living in rural and remote communities without access to public transit or public charging stations.

Therefore, we, the undersigned, citizens of Canada, call upon the Government of Canada to end the electric vehicle sales mandate.
